Subject: Dewey-Burdock draft report

---

Ronn,

First, I am Ken Distler's replacement on the Dewey-Burdock project for EPA R8 NEPA so please replace his email with mine.

Second, we (EPA) will need until at least the end of next week to complete our review of the subject line report. Rebecca is having difficulty getting in touch with the state folks to discuss the dry depletion examples that were provided in the recent phone call about the protocol. And I am still coming up to speed on the project.

I will be out of the office next Friday on furlough so I will let you know where we are in our review on Thursday or ask Rebecca to update you.
